DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Meenan on 9/12/05.

The application has been amended as follows:

Claims 16 and 17 have been cancelled.

The following is an examiner's statement of reasons for allowance:
This application has been reviewed by the examiner and meets all formal and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive support in the application disclosure as originally filed. The primary reason for the allowance of the claims is the presence of limitations in the independent claim(s), which are not found in the prior art references. Hence the prior art fails to disclose and/or make obvious a toolholder comprising: a tool including a support and a protrusion; a nest positioned above the support, the nest including a notch, wherein the protrusion and notch cooperate to permit the indexing of nest about the supports; wherein the nest includes a stem the support includes a recess and the stem of the nest extends at least partially into the recess of the support.

Specifically, the inclusion of the limitation "wherein the nest includes a stem the support includes a recess and the stem of the nest extends at least partially into the recess of the support" in the claims is absent from the prior art teachings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
